

For capturing electronic signatures in the **MENZL Equipment Management and Testing program**

In conjunction with a Wacom STU signature pad, the MENZL Equipment Management and Testing program (**version 5 or newer**) lets you capture electronic signatures when using the following program features:

- ❖ **equipment tests**
- ❖ **combined test reports**
- ❖ **lists of equipment given out**
- ❖ **cylinder pressure tests**
- ❖ **delivery notes**

Depending on the program feature, you can capture either one or two signatures.

Using a signature pad requires the following pieces of software, which you can easily download and install via the update feature of the MENZL Equipment Management and Testing program:

- ❖ Wacom STU driver
- ❖ Wacom tablet software
- ❖ Wacom signature SDK
(32-bit or 64-bit version, depending on your computer's OS)

Article numbers

Signature pad and stylus	330-634
Replacement stylus.....	330-635

Signature displayed on a pad (left) and in the MENZL Equipment Management and Testing program (right)
